### Methods, Definitions and Data Sources

The term “acres” indicated the land area impacted by the LWCF project, not any remaining acres under consideration for future LWCF work. The term “dollars” indicated LWCF enacted funding and does not include matches or cost share amounts from non-LWCF sources.

#### *Federal Side*

The Department of Interior provided data from FY2005-FY2015 for LWCF projects funded by the Federal Land Acquisitions Programs within the BLM, NPS, and FWS. The Department of Agriculture did not provide data for LWCF projects funded by the Forest Service Federal Land Acquisitions Program. This is not a complete list of Federal LWCF projects as not all agencies have compiled information on LWCF projects.

#### *State Side*

The Wilderness Society provided data for LWCF projects funded by the U.S. National Park Service State and Local Assistance Program. Dollars and projects are an estimate because data is tracked by county not congressional district. Some counties cross congressional district boundaries.
